

# Manual Comfort Control Systems

## Single room thermal comfort control for new or existing construction.

MAT's new Manual Comfort Control System is a simple solution for individual room temperature control. Push button damper adjustment allows room occupants to increase or decrease the flow of conditioned air into their space.

The system includes the MAT wall control unit and radial damper.

### Manual Comfort Control System benefits:

- Low cost solution to a common problem
- New or existing construction
- No static pressure constraints
- Satisfies LEED® Credit 6.2
- Snap fit connectors for simple installation
- Battery operated, configurable for 110V or 24V
