

Quick-Connect Boot with Grille

Application

The Quick-Connect Grille installs easily without tools with our Easy Attach knob. Both round and square grilles are available and are easily painted to match the ceiling color. Butterfly damper insert will also be available.

Standard Construction

- High density white plastic
- UV resistant plastic
- Grille kit features an 8" boot and 12" grille either square or round (Quick-Connect Reducer required to reduce down to 6" also available)
- No tools needed to install the Quick-Connect Grille
- Can be used for both new and retrofit installs
- Attaches to your branch run and features a flex duct retention ring
- Easy to attach knob installs grille in seconds and makes it easier to remove grille for cleaning later
- Optional butterfly damper with adjustment rod is also available
