

QR Code

Now You Can Instantly Link to Product Installation Instructions!

As an added benefit to our customers we've created new product labels that provide a direct link to the installation instructions on our website.

- Using your smart phone, scan the QR code on the product label.
- Don't have a QR code reader/scanner application? There are several free apps available. Simply visit your phone's app store and download a QR code reader/scanner app.

All Roto-Twist® & Electro-Balance® products now come with a scannable QR code.
