

Quick-Connect Wye

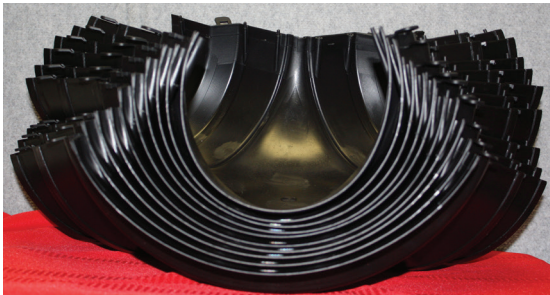

Application

Quick-Connect Wye goes together quickly. Two piece design nests together for easy storage and saves 5x the space in inventory. Each model makes 6 different WYEs.

For supply runs and exhaust systems.

Standard Construction

- High density black plastic
- Two-part design saves significant inventory space
- UL Classified for plenum use
- Unlike the metal wyes, the Quick-Connect Wye halves nest together reducing shipping costs and space requirements for inventory. No more sharp edges.
- Two models can replace twelve different metal wyes
- Used for splitting branch runs for supply or return as well as branching exhaust runs
