

Solve Your Occupant Comfort Dilemma

Solo-Control® is a simple solution for individual comfort control problems in any building.

Solo-Control®

There's a solution to that age old problem—one office is too hot and one is too cold.

Solo-Control allows occupants to adjust the flow of conditioned air into their own space, giving them control of their comfort requirements.

Features Include:

- A simple push button wall controller to open and close the damper.
- Low cost & easy installation. Dampers ship fully assembled. Self-contained wall unit controllers can be installed in just minutes.
- Snap fit connectors eliminate electrical work. No programming required.
